Working experience

On the following pages you can read about my past projects and working experience. For more elaborate info, pictures and video's I refer to my [website](#).

Bio

Maya Dhondt is trained as a classical pianist. In her work she explores the boundaries within genres and looks for encounters between the classical and the popular, acoustics and electronics, the technical and the intuitive.

About me

I am a busy bee with an insatiable curiosity and worklust. I surround myself with warm, creative people and function best in context where there is communication and inspiration. I like to be fed by beauty, whether this manifests itself in music, images or sunrise.
